Affiliations

Alpha Phi Omega

April 2012 - Current

Boy Scouts America

December 2016 - Current

Hobbies

Homelab

I spend a lot of my free time playing with my home server/NAS. I have just recently implemented a distributed filesystem, LizardFS, in my lab. I utilize LXD containers for the majority of my projects, including but not limited to hosting an nginx website, a nextcloud instance, and several video game servers (as desired by friends).

Photography

When I go on trips, I always bring my camera to document my experience. I also enjoy photographing people and pets in a portrait-type setting.
